Issue Background:

The Allstream Conference Centre was substantially completed on October 16 with occupancy on October 19, 2009, full media launch/ribbon cutting on October 22, 2009 and a Public Open House on October 25, 2009. Now that the building is one-year post construction, the attached report provides a detailed breakdown of the final costs of the Conference Centre project broken down by Base Construction and state-of-good-repair Restoration Construction. Also attached is the MHPM Status Report to the end of the first year of the warranty period post construction for the information of the Board.

Comments:

With respect to any ongoing construction matters, deficiency lists were prepared by NORR and Exhibition Place staff and to date the only major outstanding matter is the levelling of the doors which has had to be timed to fit with the busy conference schedule in this building. .

Since the last report of this matter to October 31, 2009, there was one change order over \$10,000 related to the door levelling which cost \$26,935.00. With respect to the warranty work, there have been some minor issues related to the heat pumps throughout the building and the lighting ballasts in the ballroom, but the contractors have responded in a timely matter to address these warranty issues. There still remains one more year of warranty on this project.
