C(e)

May 21, 2014

Mr. Mark Grimes
Chairman of Exhibition Place
200 Princes' Boulevard
Exhibition Place
Toronto, Ontario
M6K 3C3

Ms. Dianne Young
Chief Executive Officer of Exhibition Place
200 Princes' Boulevard
Exhibition Place
Toronto, Ontario
M6K 3C3

Dear Mr. Grimes and Ms. Young:

Re: Muzik Clubs Inc.

We act for Muzik Clubs Inc.

This will confirm advice previously given by Mr. Zlatko Starkovski, President that Muzik Clubs Inc. does not wish the matter of the capacity as set out in the exclusive use clause of its current lease to be considered on May 23, 2014 by the Board of Governors of Exhibition Place.

Accordingly, the matter of the capacity should not be on the Agenda for the Board's next meeting and, if it is, it should be taken off.

Yours very truly,
MORRIS MANNING, Q.C.
PROFESSIONAL CORPORATION

Morris Manning, Q.C., C.S., J.D.

C (6)

I just read in the paper that councillor Giorgio Mammoliti is not a fan of all ages concerts. The all ages is not the issue.

My daughter attended that concert with some friends. They are all 21 and older and from Waterloo. What was shocking to them and us as parents is that the organizers of the event did not have any attendees searched for alcohol, weapons or drugs before entering the venue. How could this be? I can't even get into the ACC for a hockey game without being searched? There was no security screening at all and that is what lead to all the sick people at the event. I would charge the organizers for all costs incurred as this was avoidable.

C(g)

Dear Sir,

I have worked at the Rogers and ACC now for 12 years.
I was 'Required' to work the Avicci event due the fact of staff requirements.
I am a bartender.

This was the absolute worst event I have ever experienced working.
These kids that where dropping like flies where 'high' the minute they stormed into the building.
Alcohol was not an issue at all and I was livid when I saw an tv interview CP24 did with a an EMS rep who claimed alcohol.
We don't need to cover these things up.

Please decline any future all ages events in Toronto.

It was embarrassing and humiliating.

Thank you,

Martin Perantinos

Subject: All Age Electronic Dance Clubs on the City of Toronto Exhibition Grounds

Dear: City of Toronto Council Members, The Honourable Deb Mathews, M.P.P., Minister of Health and The Honourable Minister Theresa Piruzza, M.P.P., Minister of Children and Youth Services

I am concerned about the health and protection of children and youth attending these large all age dance night club's and or rave venues on the City exhibition grounds. Please allow me to explain. There have been a number of newspaper articles and some television coverage of the serious issues that are beginning to expose increasing risk and potential harm to the health and safety of children and youth in attendance. I'm not sure when these venues began to allow children under nineteen to attend with adverse consequences resulting from the illegal activities at these events due to illicit drugs and alcohol use and the absence of parental supervision?

I understand that there was a ban placed on the all age electronic dance clubs on April 11, 2014, due to concerns about children and youth being attended to by private paramedics and carried out in ambulances. On May 7Th, 2014 Elizabeth Church of the Toronto Globe and Mail touched on some of the politics and the issues. In addition, Don Peat, the City Hall Bureau Chief, reported, on May 9Th, 2014, that "Councillor Mark Grimes, the Chairman of the Exhibition Place Board, tried in vain to put off the overturning of the April 11, 2014, ban on the Electronic Dance Clubs in particular until the councillors could make "an educated decision." And Sadly the "Tip of the iceberg has been revealed on May 20Th, 2014 with Kevin Connor's astute report about "29 Hospitalized During Avicii Concert at the Rogers Centre. Toronto's EMS were called because the private paramedics hired to cover the event were overwhelmed by the numbers of people consuming alcohol and or drugs who required hospitalization. This happening certainly creates a crisis for Toronto's short staffed Emergency Departments and the required equipment such as oxygen. Furthermore, the same promoter of the Avicii concert wants to bring 8,000 to Exhibition Place for raves."

I understand that one of the club's owners at exhibition place wants to expand his turf which means more revenue for the City's Exhibition Place. However, the bottom line here is the health and safety of people in attendance and especially the protection of all the children and youth.

I have contacted the City of Toronto C.C.A.S and Metro C.C.A.S. Bob Gavel of C.C.A.S. # 416-392-7032 reported, that every parent or adult who is aware of children 16 or under at these All Age Electronic Dance Clubs being carried out on a ambulance has a duty to report and he will attend with the police. In addition, Susan Sheppard the Manager of the City of Toronto Department of Public Health Drug Secretariat (Phone # 416-338-0923 also has a role to play in health promotion and prevention. The Health and Building Inspectors also need to be involved in relation to the health and safety of the building. Her phone number is 416-338-0923. And The Toronto Police want to be called immediately at 416-808-2222 or 911 when any rave with drug activity, and excessive alcohol intake by those in attendance takes place.

And of course all of these events will continue to overwhelm the Emergency Departments in the City of Toronto and the G.T.A. which has the Minister of Health's Assistant Thomas #416-212-7432 deeply concerned about the risk to health, and well-being of vulnerable children, youth and young adults and the subsequent economic cost to the health care system.

I believe that Council Mammoliti and Grimes have gotten the seriousness of this issue right. And I would recommend that you all meet together and pose a solution before a child, youth or young adult is seriously harmed or worse. Please try to do the right thing.

Yours truly,
Mary C. Galimberti, MSW, RSW

C(i)

Hi Lauren,

Absolutely not a problem.

I feel very strong about what I said and what I witnessed.

Parents should really know what's going on.

Below attached is some additional info:

Here's the info on the CP24 article I was referring to where I felt the the EMS commander was being absolutely not forthcoming at all on the truth,

<http://www.cp24.com/mobile/news/several-concert-goers-sent-to-hospital-during-avicci-show-1.1826990>

Water bottle sales are through the roof for a reason as they need to keep hydrated while on MDMA. We all know this!

<http://ecstasy.org/qanda/q78.html>

MDMA can induce euphoria, a sense of intimacy with others, diminished anxiety, and mild psychedelia. Many studies, particularly in the fields of psychology and cognitive therapy, have suggested MDMA has therapeutic benefits and facilitates therapy sessions in certain individuals, a practice for which it had been formally used in the past. Clinical trials are now testing the therapeutic potential of MDMA for post-traumatic stress disorder, anxiety associated with terminal cancer^{[4][5]} and addiction.^[6]

MDMA is criminalized in most countries. Some limited exceptions exist for scientific and medical research. For 2008, the UN estimated between 10 and 25 million people globally used MDMA at least once in

the past year. This was broadly similar to the number of cocaine, amphetamine, and opioid users, but far fewer than the global number of cannabis users.^[7] It is taken in a variety of contexts far removed from its roots in psychotherapeutic settings, and is commonly associated with dance parties (or "raves") and electronic dance music.^[8]

Regulatory authorities in several locations around the world have approved scientific studies administering MDMA to humans to examine its therapeutic potential and its effects.^[9]

Dear: Councillor Giorgio Mammoliti

This Email confirms that you have my permission to share my Email dated May 21st, 2014 with the Exhibition Place Board. My concern involves children and youth being put at a risk of serious harm in these type of venues. This is a child and youth protection issue.

Yours truly,

Mary C. Galimberti, MSW, RSW

Hi Dianne,

Thank you for your email. Would it be ok if the Councillor shared your email tomorrow at the Board of Governors of Exhibition Place meeting?

Thank you,

Laura Morreale, Executive Assistant
Councillor Giorgio Mammoliti
