To: The Board of Governors of Exhibition Place

**ACTION REQUIRED**

From: Dianne Young, CEO

Subject: **Donation of Holodomor Memorial**

**Summary:**

For several months, The Toronto Branch of the Ukrainian Canadian Congress has been exploring, with the assistance of the City Cultural Affairs Division and the Office of the Mayor, possible City property on which to locate a Holodomor Memorial and approached Exhibition Place in the early Spring 2016. This report recommends entering into a Donation Agreement between the Board, the City and the Toronto Branch of the Ukrainian Canadian Congress and Toronto Ukrainian Foundation (jointly the "Donor") generally on the terms and conditions set out in the Letter of Intent (LOI) attached as Appendix "A" to this report. Holodomor is the name given to the genocide by famine that occurred in Ukraine from 1932 to 1933. As many as 10 million Ukrainians perished during this period and this Memorial in Toronto will raise awareness of the genocide.

The details of the project and support of the project is found in the Proposal from the Donor attached as Appendix "B" to this report. Generally the intent would be the development of a parkette by the Donor in the treed area adjacent to the east entrance of Enercare Centre and bordering Canada Drive. The main sculpture to be erected in this new memorial parkette area will be the iconic "Bitter Memories of Childhood" by Ukrainian artist Petro Drozdowsky which is a key element of other Holodomor Memorials around the world. The Donor Proposal also includes several letters of support from organizations and citizens including a petition signed by several associations.

**Recommendation:**

**It is recommended that subject to approval of City Council, the Board enter into a Donation Agreement with the Donor, substantially on the terms and conditions of the LOI attached as Appendix "A" to this report and such other terms and conditions satisfactory to the CEO and the City Solicitor.**

**Financial Impact:**

The value of construction of the proposed Holodomor Memorial is estimated to be \$0.9M all of which will be funded by the Donor not the Board / City. In addition, the Board / City will receive an estimated \$90,000.00 which be held by the City for the ongoing repairs and maintenance of the Holodomor Memorial.

**Decision History:**

The Exhibition Place 2014 – 2016 Strategic Plan had a Public Space and Infrastructure Goal to *establish Exhibition Place as a destination and gathering place for the community*, and as a strategy to support this goal *we will in partnership with the private sector, enhance public amenities to service our patrons and local community visitors*

At its meeting of October 23, 2015, the Board approved amending its Plaque Installation Policy because of organizational changes that had resulted from the independence of the CNEA.

The City's Economic Development and Culture Department has the following policy with respect to Donations of Art.

#### Issue Background:

While the Board / City would provide the proposed site to the Donor at no cost, the Donor will be solely responsible for the cost of design, planning and construction of the Holodomor Memorial and once constructed, ownership of the Memorial will be transferred to the Board / City. The Donor must also contribute an amount for the maintenance and repair of the Memorial which contribution is in accordance with City policy. The terms and conditions of the proposed LOI incorporate the requirements of both the Board and City policies on donations.

#### Comments:

The Ukrainian Famine and Genocide of 1932-33 was deliberately planned and executed and caused death to millions of Ukrainians. On November 26, 2006, the President of Ukraine issued a Presidential Decree establishing the fourth Saturday in November as a National Day of Remembrance for the victims of the genocide. On November 28, 2006, Ukraine's Parliament voted to recognize the Ukrainian Famine of 1932-33 as an act of genocide against the Ukrainian people. The parliaments of Argentina, Austria, Estonia, Georgia, Hungary, Lithuania, Poland and USA and the Senates of Canada and Australia have also recognized the genocide.

Many survivors of the Ukrainian Famine have immigrated to Canada and have made a positive contribution to Canadian and Toronto society. The Ukrainian Canadian Congress – Toronto Branch initiated a request to the City of Toronto for a public City site for the erection of a Holodomor Memorial. The purpose of the Memorial as proposed by the Ukrainian Canadian Congress – Toronto Branch is as follows:

- To raise public awareness of the Holodomor genocide by developing and improving a public area for the full enjoyment of the residents of the City of Toronto
- To erect a memorial to the victims of Holodomor
- To provide a public space for the annual Holodomor Commemorations on the 4<sup>th</sup> Saturday in November that reflect the activity, importance and status of the Ukrainian Diaspora in Toronto and the surrounding area

The design for the memorial attached as Schedule "I" to Appendix "A" is, at this point a preliminary concept and final design work will be completed over the next 4 months in consultation with Exhibition Place and the City and will also have to proceed through the normal City Building Permit process.

## The Holodomor Memorial Project

---

The Holodomor is the name given to the genocide by famine that occurred in Ukraine from 1932 to 1933. As many as 10 million Ukrainians perished as victims of a man-made famine under Joseph Stalin's regime, with 25,000 dying each day at the peak of the famine.

The Toronto Branch of the Ukrainian Canadian Congress has been offered the parkette site at Exhibition Place by the City of Toronto as a possible site for the location of a Holodomor Memorial. We have begun to explore the potential of the placement of a memorial that can fulfill the objectives of the Holodomor Memorial Project Toronto:

- to erect a memorial to the victims of Holodomor
- to raise public awareness of the Holodomor genocide
- to have the unveiling of the Memorial within the shortest reasonable time
- to provide an appropriate public site for an annual Holodomor Commemorations that reflect the activity, importance and status of the Ukrainian Diaspora in the City of Toronto and the surrounding area on the 4th Saturday of November

On the following pages, preliminary site concepts are shared for the review and advice of the Exhibition Place Board, with the hope that we will be able to move forward with design work with a goal of ultimately beginning construction in November 2016. As the design progresses, we will be able to provide detailed budgets for both construction and maintenance being undertaken by the Toronto Branch of the Ukrainian Canadian Congress.

The contents of this booklet also contain background information of the Holodomor Memorial here and around the world, and the many letters and signatures supporting this important initiative. We thank the members of the Exhibition Place Board for their review of this document.

## Site Design Principles

- We are aware of the civic importance of the Prince's Gates and are committed to respecting the prominence of this landmark. Our design principles for the Holodomor Memorial are based on the idea of not directly engaging the common boundary between the Prince's Gates plaza and the parkette.
- The iconic sculpture "Bitter Memories of Childhood" created by Ukrainian artist Petro Drozdowsky, will be a central focus of the Memorial. This sculpture has been used in Holodomor Memorials internationally and is vitally important as a common theme expressed in locations like Washington and Kyiv.
- In order to draw people in to learn more about the Holodomor, the central figure should be visible from many viewpoints to attract both 'destination' visitors and those who could find the memorial 'by chance' as part of their travels through the city. Pathways and view corridors should be used to make the Memorial visually accessible.
- New pathways and built elements of the Memorial should work as much as possible within the existing pattern of mature and healthy trees in the parkette. The existing trees can be employed to create strong framing elements, with new planting provided to accentuate the views and pathways.
- The existing metal fencing will be kept in place, with locations suggested where new gateways can be provided to encourage people to come into the parkette. These gateways will be closed during the Exhibition for security.

## Site Design Concept

The proposed concept for the Holodomor Memorial shows a central position for the iconic sculpture “Bitter Memories of Childhood” by the Ukrainian artist Petro Drozdowsky. The status is approximately 5’-0” high and it is preferred that it be kept at a fairly low relationship to grade for everyone’s accessibility and the greatest effect of the work. This work is a key element that is shared with other Holodomor Memorials around the world, and is sited in a prime location that allows for framed views in many directions. The primary site will have the sculpture facing toward the Prince’s Gates, with a modest paved dais oriented towards Canada Boulevard, framed by planting and a low seating wall. A light trellis for shade may also form a part of the memorial.

Pathways leading from three different entry points along Strachan are suggested in order to draw people in to learn more about the Holodomor, with views through the existing trees towards the central figure. Three small ‘satellite’ gardens are suggested as places to pause along these pathways, creating a contemplative narrative where other important symbols of the Holodomor will be expressed in low relief elements.

These elements would include the broken Millstone, the ritualistic cloth with iconic Ukrainian rushnyk embroidery patterns, the trident, the candle and the stork in contemporary and effective ways to give cultural support to (and not to overwhelm) the ‘Bitter Memories of Childhood’. The expression of these symbols and their gardens will be developed with the Ukrainian community, the CNE Board, and the City of Toronto over the next several months to create contemplative spaces that lead to the gathering place of the Monument. The siting of the monument would allow for those special occasions where there will be many people, and work well when there are only a few visitors learning about the Holodomor.

## Site Design Concept

The entrances to the Memorial can be made through the existing metal fence where the pathways connect to the Strachan Avenue sidewalks, with gates that can be closed when required for the Exhibition events. Lighting focused at low levels will be provided to accentuate the Memorial dais.

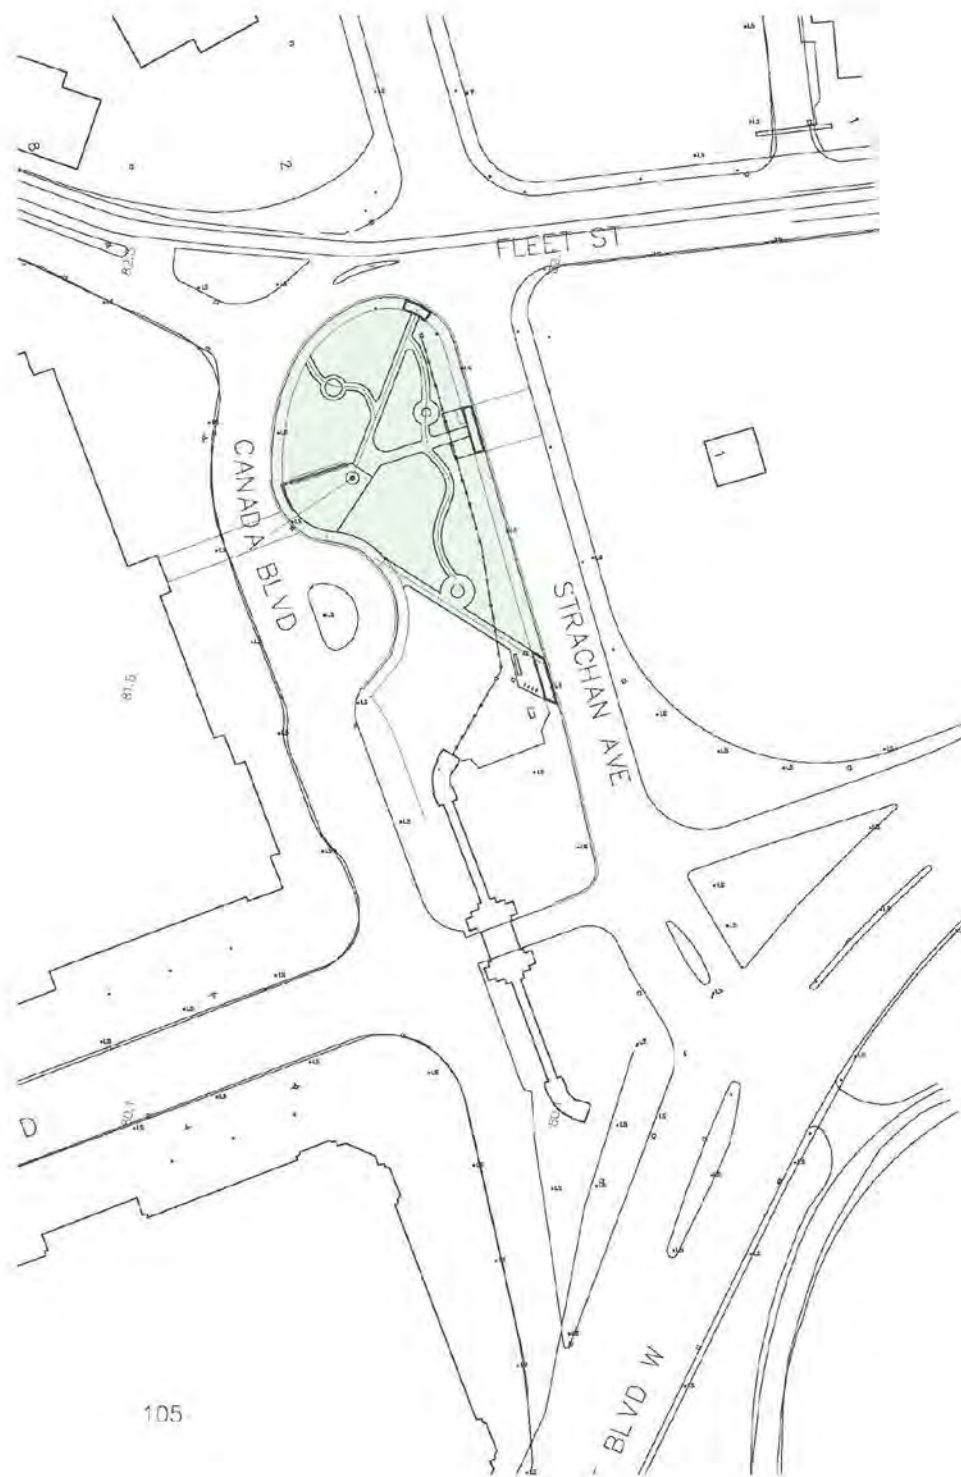

We are also suggesting that the parkette could also feature amenities for pedestrians and cyclists who are using the bike path along Strachan Avenue and the Martin Goodman Trail at the waterfront nearby. This is suggested as a zone to the north of the Prince's Gates Plaza beyond the existing grove of conifers, providing a water fountain, bike parking rings and low bench, connecting to a pathway that leads to the bus stop at the lay-by at Canada Boulevard and ultimately to the Memorial. This pedestrian and cycling amenity is seen as something that can benefit visitors to the Exhibition grounds, while deferring to the main focus of the Prince's Gates Plaza. It is also suggested as a draw for people who would pause and perhaps notice the pathway leading to the Holodomor Memorial and be drawn in to learn something they didn't know before.

## Information Needed

In order to proceed with the design of the elements of the Holodomor Memorial, more specific information about the parkette is needed. Topographical and locational survey information will be required, along with geotechnical information. If any of these items already exist through previous work on this site, this would be extremely helpful for the design team. If this information is not available, we will need to make arrangements for this work to be done.

## Background Information

### The Holodomor Memorial Project

The Ukrainian Famine and Genocide of 1932-33, known as the Holodomor, was deliberately planned and executed by the Soviet regime under Joseph Stalin to systematically destroy the Ukrainian people's aspirations for a free and independent Ukraine, and subsequently caused the death of millions of Ukrainians in 1932 and 1933. Forced collectivization by the Soviet regime under Joseph Stalin also caused the death of millions of other ethnic minorities within the former Soviet union.

On November 26th, 1998, the President of Ukraine issued a Presidential Decree establishing that the fourth Saturday in November be recognized as a National Day of Remembrance for the victims of this mass atrocity. The fourth Saturday in November has been recognized by Ukrainian communities throughout the world as a day to remember the victims of the Ukrainian Famine and Genocide of 1932-33 and to promote the fundamental freedoms of a democratic society.

On November 28, 2006, Ukraine's Parliament voted to recognize the Ukrainian Famine of 1932-33 as an act of genocide against the Ukrainian people. The parliaments of Argentina, Austria, Estonia, Georgia, Hungary, Lithuania, Poland and the United States of America, and the senates of Australia and Canada have recognized the forced Ukrainian Famine of 1932-33 as a genocide against the Ukrainian people. On June 19, 2003, the Senate of Canada unanimously adopted a motion calling on the Government of Canada to recognize the Ukrainian Famine of 1932-33 as an act of genocide.

It is recognized that information about the Ukrainian Famine and Genocide of 1932-33 was suppressed, distorted or destroyed by Soviet authorities. It is only now that truthful and accurate

## Background Information

information is emerging from the former Soviet Union about the Ukrainian Famine and Genocide of 1932-33. Holodomor has now been incorporated into the high school curriculum across Canada.

Many survivors of the Ukrainian Famine and Genocide of 1932-33 have immigrated to Canada and have made a positive contribution to Canadian society.

Ukrainian Canadian Congress - Toronto Branch has requested the City of Toronto for a public site for the erection of a Holodomor Memorial. Of the various sites offered, the parkette at Exhibition Place is deemed as the most appropriate in meeting the objectives of the Holodomor Memorial Project:

- To erect a memorial to the victims of Holodomor
- To raise public awareness of the Holodomor genocide.
- To have the unveiling of the Memorial within the shortest reasonable time.

The Holodomor is the name given to the genocide by famine that occurred in Ukraine from 1932 to 1933. As many as 10 million Ukrainians perished as victims of a man-made famine under Joseph Stalin's regime, with 25,000 dying each day at the peak of the famine.

The Government of Ukraine, the United States House of Representatives, the United States Senate, the Parliament of Canada, the Senate of Canada, the Governments of Alberta, Manitoba and Saskatchewan, UNESCO, the United Nations and over 40 other jurisdictions around the world have officially condemned the Holodomor or recognized it as genocide. Ukraine has established the fourth Saturday in November in each year as the annual day to commemorate the victims of the Holodomor.

On May 29, 2008, the *Ukrainian Famine and Genocide ("Holodomor") Memorial Day Act* (Canada) was enacted to recognize the famine as an act of genocide and to establish throughout Canada the Ukrainian Famine and Genocide ("Holodomor") Memorial Day on the fourth Saturday in November in each year.

Between the early 1930s and his death in 1953, Joseph Stalin had more than a million of his own citizens executed. Millions more fell victim to forced labor, deportation, famine, bloody massacres, and detention and interrogation by Stalin's henchmen. Stalin's Genocides is the chilling story of these crimes. The book puts forward the important argument that brutal mass killings under Stalin in the 1930s were indeed acts of genocide and that the Soviet dictator himself was behind them.

Norman Naimark, one of our most respected authorities on the Soviet era, challenges the widely held notion that Stalin's crimes do not constitute genocide, which the United Nations defines as the premeditated killing of a group of people because of their race, religion, or inherent national qualities. In this gripping book, Naimark explains how Stalin became a pitiless mass killer. He looks at the most consequential and harrowing episodes of Stalin's systematic destruction of his own populace—the liquidation and repression of the so-called kulaks, the Ukrainian famine, the purge of nationalities, and the Great Terror—and examines them in light of other genocides in history. In addition, Naimark compares Stalin's crimes with those of the most notorious genocidal killer of them all, Adolf Hitler.

On behalf of the Board of Directors of the Ukrainian Home for the Aged, as well as the 165 residents and 130 employees of the Ivan Franko Homes, we would like to confirm our strong support of the Holodomor Memorial Project. A number of our seniors are themselves victims of the Holodomor and others are descendants of families of victims. Some can still recall the atrocities of this genocide that they witnessed as young children, the barbaric and inhumane horrors of which no one should ever be subjected to.

By erecting a memorial to the victims of Holodomor, the City of Toronto will help raise public awareness of this Stalin-orchestrated genocide of 1932-1933, and by locating such a memorial on the grounds of Exhibition Place, it will raise it to a national and even international level. We firmly believe that the entire world should be made aware of the lessons that can be learned from the Holodomor and it is our responsibility not only to pay tribute to the victims, but even more so, to ensure that nothing similar is ever repeated anywhere in the world.

In conclusion, please be assured once more, that we, citizens of Metropolitan Toronto, strongly support your Committee's proposed erection of a Holodomor Memorial at Exhibition Place.

Sincerely,

On behalf of the Board of Directors,  
 the Residents and Employees  
 of the Ivan Franko Homes,

George Horhota,  
 President

Terry (Terenya) Tonkovich,  
 Executive Director.

**TO: HOLODOMOR MEMORIAL PROJECT COMMITTEE**

We, the undersigned, are survivors of the Holodomor.

We profoundly support your efforts in establishing a Holodomor Memorial at Exhibition Place, north of Princes' Gates, Toronto.

The Ukrainian Famine-Genocide of 1932-33 - the Holodomor - was a deliberate act by Stalin's Communist regime to eliminate a nation. Up to ten million lives were tragically lost. The Ukrainian population was reduced by as much as 25 percent.

Children comprised one-third of the Holodomor victims in Ukraine.  
We were the lucky ones. We survived.

The Holodomor Memorial at Exhibition Place, Princes' Gates, in Toronto will:

- Pay tribute to millions of innocent victims. Through remembrance and commemoration we will strive to ensure that such unthinkable barbarism is never repeated.
- Restore historical justice and achieve international recognition of this Ukrainian genocide.
- Publicly confront past atrocities and crimes of the Soviet Communist regime.
- Educate, both young & old, about this tragic episode in human history.
- Instill in our young people enriched understanding that embraces the sanctity of all human life.

May God Bless Your Endeavors!

Oksana Rewa  
 Chair, Holodomor Memorial Committee

Dear Oksana,

The 20th century witnessed many examples of man's inhumanity to man, including the Holocaust and the Ukrainian genocide known as the Holodomor.

For many years the Holodomor was denied, dismissed, and covered up. Only with the collapse of the Soviet Union in 1991, did archives become accessible. These archives show that the famine-genocide was engineered and directed against the Ukrainian people to quell their aspirations for independence.

Few accounts of the Holodomor ever reached the West; those that did were often ridiculed by proponents of the Communist regime, which repeatedly denied the existence of the genocide.

Scholars now have the evidence to support what witnesses and survivors have said all along. Students need to learn that genocides may be engineered even in peacetime with food used as a weapon. Today, we know the truth and must speak out so that others may learn.

The Holodomor Memorial will:

- Acquaint Torontonians with the Holodomor - a human tragedy, an assault of unthinkable barbarism not only on the Ukrainian family, but the entire human family
- Teach our young people about this tragedy, about the sanctity of all human life
- Sensitize Torontonians and indeed the world to ensure that such a terrible episode in human history is never repeated
- Help us publicly and openly confront past atrocities in order to establish a foundation on which we can create a world that does not repeat the failings of the past

As the survivor of the Holodomor of 1932-33 in Ukraine , I have strongly supported CUC's efforts for the last 20 years , and support it now , to build the Holodomor Memorial at an Exhibition Place in Toronto , Ontario .

Yes , I have been on a few previous , similar Committees , however unsuccessful , but may be now , we , The Ukrainians

and the City of Toronto , have matured enough to understand the importance of such a Memorial .

Millions of those , who have been starved to death by the then Soviet Communist regime of J. Stalin and his cronies ,

at the time of a good harvest and peace , deserve to be memorialized by the Holodomor Memorial at an Exhibition Place ,

or any other suitable location .

I wish the Committee , and all its members - luck , determination and a success to complete this project .

Yours truly , Mykola Latyshko .

PS. I pledge my first \$ 1000.00 CD. for this project .

I, Vasyl Kurlak, a first generation Ukrainian-American and citizen of Buffalo, New York, support the building of a Holodomor Memorial at

Exhibition Place.

While I am not a citizen of Toronto, I love your city and visit often for many Ukrainian festivals and events.

I am writing to inform you of a very unique perspective of this vital project.

The Ukrainian community from many American cities, countries worldwide and of course from Ukraine, will travel to the Holodomor

memorial to pay their respects, during the opening ceremony, yearly remembrance services and for general visits.

This translates to thousands of visitors, yearly, to Toronto, which will increase tourism and the economy of your wonderful city.

There may be other Holodomor memorials in the USA, but this one will be the closest in proximity to Buffalo, Rochester and Syracuse, New

York, all of which have large Ukrainian populations, and will likely travel to visit the memorial. Currently, my friends travel from these cities

to Toronto for the Ukrainian Bloor West Festival and for many other Ukrainian events, throughout the year.

The most important reason to build this memorial is to honor the millions of innocent Ukrainians who died such a long, horrible death by

starvation. May God bless you all for supporting the Holodomor memorial and for remembering the men, women and children who were the

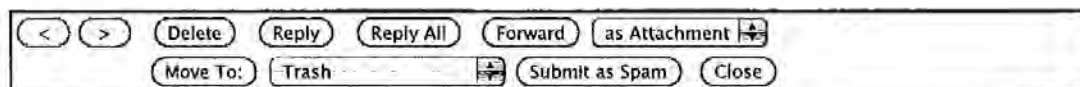

victims. I look forward to seeing the Holodomor monument in Toronto in the near future.

Thank you very much for your time.

Sincerely,

Vasyl Kurlak

Dear Holodomor Project committee,

*As a freedom-loving Canadian citizen and person born in a Communist country USSR, I strongly support your efforts in obtaining a memorial site to the victims of the Stalin orchestrated Holodomor of 1932-1933, in which, it has been estimated, seven to ten million people, men, women, children and the elderly, starved to death in the horrific attempts of the then Soviet Communist regime to crush the patriotic spirit of the Ukrainian people.*

*The world should know, Canadians and Torontonians should know, and be able to pay tribute to those who perished in this barbaric tragedy, so that not only their voices be heard to prevent such an act of genocide from ever happening again, but to sensitize them as well to the sanctity of human life, and to the continuous acts of aggression that are still being perpetrated on Ukraine, Ukrainians, and Ukrainian soil.*

I wish you God's strength in your endeavors.

On behalf of the entire Ukrainian Youth Association of Canada and in particular our membership located within the Greater Toronto Area, we applaud and strongly support your efforts in securing an appropriate site at Exhibition Place to commemorate one of humanity's greatest tragedies, the Holodomor.

It is highest time, that in a city as diverse as Toronto, with its large Ukrainian community a memorial to the victims of genocide of the Ukrainian people during 1932-33 be erected as a place of solemn commemoration and to serve as a vivid reminder for the world to learn from the past and ensure similar tragedies will never happen again.

We wish you all the best in your endeavours and a successful end to this campaign.

Dear Mayor Tory and the Holodomor Project Committee,

As a life-long resident and property tax payer of the City of Toronto, I strongly support, and in fact, urge, the building of the Holodomor Memorial at Exhibition Place. It is important to realize that this genocidal event is seriously understated in the annals of history and a memorial at Exhibition Place, with its local, national and international traffic, would go a long way to rectify this situation.

Thank you,

We both strongly support the building of a Holodomor Memorial dedicated to the seven to ten million victims of the 1932-1933 famine in Ukraine, orchestrated during a time of peace, by Josef Stalin. It is important that our community, as represented by the City of Toronto, teach Canadians, as well as visitors to Toronto, about the sanctity of human life and make everyone aware of this genocide that took place to bring down a nation, while making those that survived subservient to the Soviet government, by using the absence of food as a weapon. By publicly confronting atrocities such as the Holodomor, we create a foundation for a world that does not accept these past trespasses against innocent lives.

Sincerely yours,

Peter and Larissa Bayrachny

Attn: Holodomor Memorial Project Committee

Dear Committee Members:

I am pleased to support the request to the City of Toronto to obtain a site at Exhibition Place for a Holodomor Memorial.

We, in Canada, are honored to live in a country that has always demonstrated a respect for history, and specifically, for historic events that have impacted the citizens of Canada. Although the Holodomor is a crime which happened in a country far from the Canadian reality, it is a genocide that has directly affected many individuals who emigrated to Canada and have contributed to the vibrant development of our country.

The survivors of the Holodomor are victims of a totalitarian Soviet regime that attempted to extinguish the Ukrainian nation - its culture, language, national identity, and ultimately its people. But the people have persevered to share the story of not only the Holodomor, but the value of human dignity and freedom. Unfortunately, the lessons of the Holodomor persistently need repeating as we watch continued injustices and repressions around the world.

It is very fitting for a memorial to the victims of the Holodomor to be erected in a most public place in the City of Toronto to educate, remind and encourage all Canadians to continue working toward a more tolerant global community, respectful of the fundamental human rights of every individual.

Sincerely,

Irene Mycak

\*Dear Holodomor Project Committee:\*

\*I, Maria Antoniv, a long-time resident and property tax payer in the City of Toronto, support the building of the Holodomor Memorial at Exhibition Place. Building such a memorial in a public place has been a long time in coming. It is imperative that society, as represented by the City of Toronto, teach Canadian youth about the sanctity of human life. Such a permanent commemoration will stand to sensitize Torontonians and visitors. The Holodomor is a living lesson about a genocide engineered in peacetime, using food as a weapon against a freedom loving people. By publicly confronting atrocities such as the Holodomor, we create a foundation for a world that does not repeat the past. We should expect no less in Canada, one of the most progressive countries in the world, and in Toronto, one of the best, most diverse cities in the world. Sincerely yours, Maria Antoniv, \*

To: the Holodomor Memorial Project Committee and the City of Toronto

I strongly support the creation of a Holodomor Memorial in a prominent and respectable location in the city of Toronto.

It would be a great memorial and tribute to the victims of a horrific genocide, touching the families of a community that is a strong part of Canada's fabric. It would also be a recognition of a genocide that needs to be acknowledged, exposed and learned about, to prevent such atrocities from ever happening again and to expose the perpetrators for who they were, and educate the supporters of whom, still deny the genocide. Toronto should join the ranks of other world class cities and be honoured to host such a memorial.

### Holodomor Memorial Project Committee

For almost seventy years the Holodomor (famine genocide) in Ukraine was denied, dismissed and covered up. Only with the breakup of the USSR in 1991 did archives become accessible. These archives show that the famine was engineered and directed against the people of Ukraine to quell their aspirations for independence.

Scholars now have evidence to support what witnesses have said all along. Students need to learn that genocides may be engineered even in peacetime with food used as the weapon. Holodomor is a living lesson: one that you yourself have eloquently proclaimed.

We say that we must learn from the mistakes of history. Eighty years ago there was no one to speak because no one knew the truth. Today, we know and can speak out. We must ensure that the voices of today are heard.

### The Holodomor Memorial will:

- Acquaint Torontonians and visitors to Toronto, about the Holodomor - a human tragedy - an assault of unthinkable barbarism not only on the Ukrainian family but the entire human family.
- It will teach our young people about this tragedy - about the sanctity of all human life.
- Through recognition and commemoration we will sensitize Torontonians and the world to ensure that such a terrible episode in human history is never repeated.
- When we publicly and openly confront past atrocities, we create a foundation on which we can then move forward to create the kind of world that does not repeat the failings of the past.
- It will allow us to remember the victims - the act of remembrance and of finding new understanding in those horrific events must fall not just to those who identify as Ukrainian, but to all the world's citizens.

We fully support the building of Holodomor Memorial and urge you to allow it to be placed at Exhibition Place, by the Princess Gates.

Respectfully,

Vera Melnyk, President
