EXHIBITION PLACE

October 20, 2006

To: The Board of Governors of Exhibition Place
From: Dianne Young
General Manager & CEO
Subject: **Variance Report – Period Ending September 30, 2006**

Purpose:

This report is being submitted for the consideration of the Board of Governors.

Financial Implications and Impact Statement:

The variance to September 30, 2006 is showing a negative variance of \$502,034 which reflects for the first time a negative variance from budget for the CNEA Program of \$1,022,725. Cost reduction measures are being instituted across all program areas to try to address this variance.

Recommendation:

It is recommended that:

- 1) This report be received for information; and
- 2) Staff be requested to report to the next meeting of the Board on December 15, 2006 with an update on the year-end outlook.

Background:

In accordance with the Financial Management By-law No. 2-99 consolidated variance analysis reports are prepared three times each year for presentation to the Board of Governors.

Comments:

This report, together with the appended consolidated variance analyses (Schedules 1-7) for the nine-month period ending September 30, 2006, is the third and last of the three reports that are submitted to the Board during 2006.

The year 2006 variance process will require staff responsible for the management of activities and related budget funding to report to the General Manager on a monthly basis for any variances in excess of 5 % during the last quarter of the year.

THE BOARD OF GOVERNORS OF EXHIBITION PLACE

Exhibition Place, Toronto, Ontario M6K 3C3 Tel: (416) 263-3600 www.explace.on.ca

Consolidated Position for All Programs

The consolidated financial position of Exhibition Place for the period ending September 30, 2006 reflects an unfavourable variance of \$555,012 as indicated on Schedule 1. This variance reflects the combined activities of the Direct Energy Centre Program, Exhibition Place Program and the CNEA Program.

The Direct Energy Centre Program

The operating results for the period ending September 30, 2006, reflect a favourable variance of \$108,214.

Rental and Electrical income is unfavourable to budget by \$147,302 due to timing of new business. Food and Beverage concessions are unfavourable to budget by \$74,320 as the budget for corporate events has not been achieved and staff has reviewed this shortfall with Centerplate; however, it will be difficult to totally make up this shortfall.

Telecommunications, which encompasses selling telephone, computer and internet services to show clients, is exceeding the budget by \$22,000 due to higher demand for internet services from shows and reselling of phone services to Ricoh Coliseum and the new Soccer Stadium.

Expenses such as Cleaning and other Show Services are higher than the budget projection (40.97%) but this is a positive indicator for the Direct Energy Centre as these services are sold to clients and is offset by the higher revenue generation from Third Party Billings as seen on Schedule 2.

Direct and indirect operating costs are favourable to budget by \$137,460 as a result of savings from staff vacancy in the Finance area and the timing of expenditures in the Sales and Marketing Department.

The Direct Energy Centre is looking forward to a number of important events in the months ahead such as the Royal Agricultural Winter Fair, One of a Kind Xmas show, Print World and the expectation is that the annual budget target for net income will be achieved.

Exhibition Place Program

The Exhibition Place program has a nine-month results that are indicating a favourable budget variance of \$359,498.

Parking revenues are tracking below the budget target on a year to date basis, but as can be seen on Schedule 4, there was a positive variance to budget of \$106,000 for the month of September. This was caused by greater parking revenues than expected from the IDEX event, from a movie shoot, and spillover parking revenue from the Chinese Lantern Festival at Ontario Place.

To compensate for the anticipated year end shortfall in parking income, aggressive cost control measures have been implemented broadly across the Exhibition Place program and the following expenditure savings to September 30, 2006 can be seen in Schedule 5:

| | |
|-----------------------------------|------------|
| Administrative Savings – in Total | \$ 162,045 |
| Operational Savings – in Total | \$ 602,356 |

There are two other areas that are showing significant positive financial results. The accounting revenue category is showing a positive budget variance of \$144,632 mainly caused by higher than anticipated revenue for overhead recovery from Direct Energy Centre events and Ricoh Coliseum events. Additionally the utilities account is showing a year to date budget underexpenditure of \$121,435 (Schedule 5). This is largely caused by natural gas savings from a relatively mild winter and also provincial rebates received through our electrical supply contract.

In terms of negative variances, there are two areas that should be commented on.

Firstly, rental and services revenue are showing a year to date negative budget variance of \$112,459. This negative budget variance will probably persist to some degree to year end and is reflective of the fact that electrical show services revenue for the Direct Energy Centre events is lower than forecast. (The Exhibition Place program receives 50% of the gross electrical revenue from DEC events). Also the sale of skilled trade services to the two new permanent tenants has been lower than had been anticipated.

The second area which is showing a significant budget variance is Sales Revenue which on a year to date basis is \$130,922 below anticipated budget. The main driver for this budget variance is that when this budget was developed in the fall of 2005 it was expected that the LCBO annual meeting would be held at Exhibition Place and that Aerophile tethered balloon attraction would return to the grounds in 2007. Neither one of these two budget plans occurred.

It is expected that the budget savings noted above will be able to offset at year end the anticipated shortfall from parking revenues and sales.

Canadian National Exhibition Association

The operating results for the period ending September 30, 2006 reflect an unfavourable variance of \$1,022,725. Revenue performance for the 2006 CNE was affected by the poor weather especially on the Labour day weekend. Admission and concession revenues (including rides) were particularly reduced by this factor.

Because of the difficulties with the revenues, diligent efforts are being undertaken to reduce expenditures to the extent possible. At the present time the expenditures to date (3rd quarter) are under the budget forecast by approximately \$269,000. It is still early to know with certainty all of the CNE related expenditures but there should be some additional savings in several areas from items such as work-order charges and the payment to Ontario Place (for the sharing of

admission revenue). Also there was an unexpected rebate for Hydro power this year and that resulted in a saving for utilities.

As happens every year, there are a number of steps that have to be taken before the final results of the 2006 CNE are known. Settlements with Ontario Place, GO Transit and the North American Midway Entertainment (NAME) need to be concluded. Other areas where additional information is needed include advance and group sales revenues and the costs of services provided by external parties and on internal work orders.

Once all of these factors have been finalized a more accurate estimate of the final position for the 2006 CNE can be produced.

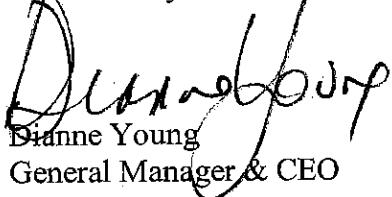

Conclusion:

This report provides the variance analysis for the first nine months of 2006 for the Direct Energy Centre Program, the Exhibition Place Program and the CNEA Program.
