

### **Exhibition Place Wins Gold Waste Minimization Awards**

The Recycling Council of Ontario held the 2007 Ontario Waste Minimization Awards and honored the City of Toronto's Exhibition Place with a Gold Facility Management Award recognizing buildings that showcase an internal waste minimization program.

The Recycling Council of Ontario's 24-year tradition honors those who demonstrate excellence and leadership in the creation of waste reduction/diversion initiatives. The Awards are integrated into the celebration of Waste Reduction Week in Canada (WRW), when communities across the country are encouraged to promote the 3R's principles and help others understand and adopt the benefits of waste free living. The Waste Minimization Awards recognize provincial waste diversion champions in business, municipalities, institutions, education, not-for-profit, the media, as well as individuals.
